Hi Liz,

In case you haven't heard the news, the Monument Butte Final EIS has finally been released for public comment. I think we should be in pretty good shape based on our review of two Pre-FEIS documents so far. But, still wanted to check if you are interested in reviewing. I've attached two response to comments documents to help refresh your memory – the response to comments on the DEIS and response to our first Pre-FEIS comments (we didn't make any Water comments on the second Pre-FEIS because we were so satisfied with the responses).

I anticipate needing to allow a lot of time on this one for internal (and HQ) review because it has so much attention. So, if you want to review, I would need any comments from you by July 13. Alternately, I can cover the review and draft comments to share with you for your editing/approval.

Please let me know how you would prefer to proceed. The document can be downloaded at the link in the email forwarded below.

Thanks,

Molly
